Jennifer Kennedy-Coggins and V. Morgan Carroll will present this one-hour Cozen O'Connor webinar focusing on priority of coverage issues arising in construction related claims. They will discuss the interplay between the multiple insurance policies and construction contracts and subcontracts involved for large construction projects, including:

- Priority of coverage for a general contractor where its insurer and subcontractor's insurer provide the general contractor with both named insured and additional insured coverage
- The duration and extent of additional insured coverage for a general contractor under its subcontractor's policy
- Priority of coverage for an owner where the owner is insured under multiple policies, including the owner's, contractor's, and subcontractor's policies
- Self-Insured Retentions where multiple insurers provide coverage
- The construction contract vs. the insurance policies- which contract language controls when insurance coverage is provided pursuant to a construction contract
- The effect of Certificates of Insurance on coverage
