Ryan Blaney, member in the Health Law practice at Cozen O'Connor, will be participating in a webinar titled "Ensuring HIPAA Compliance When Transmitting PHI via Patient Portals, Email and Texting." The panel will provide guidance to health care counsel on measures hospitals and physicians should take to ensure compliance and minimize liability when using patient portals and other electronic means to communicate PHI. The panel will also outline the legal risks in patient portal use and offer best practices for implementing effective policies to ensure HIPAA and regulatory compliance.
