

The Changing PFAS Landscape

Location

Sheraton Boston Needham Hotel
100 Cabot St.
Needham, MA 02494

Pete Fontaine will share his insights into the difficult legal and regulatory issues associated with the growing problem of per- and polyfluoroalkyl substances (PFAS) groundwater contamination at a seminar hosted by one of the world's leading environmental laboratories, Eurofins Environmental Testing. The program will provide information on these emerging contaminants and help attendees navigate current and future issues.
